

~~~~~  
**Get NEMSIS Gold ePCR and Receive Up to \$1,800.00 in Free Software**  
~~~~~

Dear EMS Responder,

You've probably seen this coming.

More and more states are adopting the NEMSIS Compliant standard for Patient Care Reporting. It's only a matter of time before **your state requires YOU to be NEMSIS compliant.**

AIM NEMSIS Gold ePCR was built by EMS professionals, for EMS professionals.

We worked side-by-side with EMS crews, managers, and supervisors to build AIM ePCR into the most efficient, reliable, and user-friendly software in the industry.

With **AIM NEMSIS Gold ePCR**, you can:

- Computerize all or part of your process with options "live" data entry by crews in the field, or post-trip data entry by billing personnel from a paper PCR
- Track and resolve incomplete ePCRs using note fields and queues that keep billing staff and crew in constant communication
- Scan and attach hospital face sheets and other documents to the ePCR, keeping patient records organized
- Customize your software with user-defined flow, entry and defaults based on the type of call
- Create and re-use custom narrative templates for dialysis and other recurring type transports, making documentation easy
- Get reimbursed much faster without redundant data entry through real-time data exchange with Aim Billing

Customize AIM ePCR to meet YOUR own unique needs.

[Click here to view RAM Software Systems Website and learn more about NEMSIS Gold Compliant AIM ePCR, or call 800-726-4690 to speak with a member of the RAM team.](#)

And, for a limited time, if you order AIM ePCR, you will receive for FREE one of the following modules:

FREE AIM Crew Module

With AIM Crew, you can keep organized records on field personnel and objectively evaluate their performance. Throw out the file folder drawers and keep an electronic system that's more reliable, organized, and frees up much-needed space.

With AIM Crew, you'll be able to:

- Generate complete address/phone lists of all attendants
- Be alerted to important certifications, vaccinations, and licenses due for renewal
- View each attendant's call volume for any time period through integration with AIM ePCR
- Ensure records are kept in accordance with OSHA regulations

FREE AIM Fleet Module

AIM Fleet helps you eliminate surprises related to repair and maintenance of your emergency vehicles.

With AIM Fleet you can:

- Keep vehicles in working order by keeping track of preventative maintenance
- Access detailed service history of vehicles to identify recurring problems
- Review and compare fleet repair costs, saving thousands of dollars
- Track costs associated with cots, generators and other equipment on the vehicle

FREE AIM Subscription Module

With AIM Subscription, you can store volumes of data on recurring patients whether you operate as a subscription-based service or not. The information you'll have on recurring patient revenue, status and utilization will give you invaluable insight into the most profitable areas of your business.

AIM Subscription lets you:

- Keep track of recurring patient's complete call history
- Run subscription/membership drives
- Produce subscriber, statistical and financial reports

Up to \$1,800.00 value, yours FREE!

[Click here to view RAM Software Systems Website and learn more about NEMSIS Gold Compliant AIM ePCR, or call 800-726-4690 to speak with a member of the RAM team.](#)

And for your convenience, you can either install and own AIM ePCR licenses, or run AIM through the Web for a low monthly subscription fee. You pick the plan that works for you.

Give our dedicated staff a call and get NEMSIS Gold Compliant today. With over 20 years of experience delivering the best EMS products and services in the industry, they can answer any question you have.

And, as one of the last privately owned, United States-based business's in the industry, your SUPPORT call won't be routed overseas. So give us a call-we're ready to help.

Don't wait to get NEMESIS Gold Compliant. Save thousands of dollars NOW.
